SUMMARY

Passionate Cybersecurity student with hands-on experience in password auditing, and network traffic analysis. Skilled in using tools like John the Ripper, Wireshark, and Nmap. Basic understanding of networking concepts, including the OSI model and network protocols, with a focus on enhancing cybersecurity skills.

EDUCATION

2025–present	Btech (Computer Science) at Vivekananda Global University [7.16 CGPA]
2022	Intermdiate 12th Bihar School Examination Board BSEB
2020	Matriculation(10th) Bihar School Examination Board BSEB

SKILLS

Skills	Cybersecurity, Kali linux, Nmap, John the Ripper,Networking, Wireshark, Teamwork, Leadership.
Achievements	1st place in cricket competition at panache.

PROJECT

Password Strength Checker

Developed a Password Strength Checker to evaluate the strength of user-generated passwords based on various criteria. The tool analyzes password length, complexity, and character variety (uppercase, lowercase, numbers, and special characters) to determine whether the password is weak, moderate, or strong

CERTIFICATION AND EXTRACURRICULAR

Foundations of Cybersecurity	[Google - issued on Apr/2024] Link
------------------------------	---

Introduction of Cybersecurity	[Simplilearn-issued on Nov/2024] Link
